

Developer Onboarding Guide

Welcome to Brikvest — let's get you live.

How it works

1. Submit your information
2. We conduct due diligence
3. Your store goes live
4. You start selling

We're excited to get you onboarded to Brikvest.

To publish your first listing and start reaching thousands of middle-class buyers who want to invest in your land — please provide the information below.

01 — COMPANY INFORMATION

Tell us about your business. This information is submitted once and only needs to be updated if it changes.

- ✓ **Company name**
- ✓ **Company logo** — your logo will appear on your store listing
- ✓ **RC number** — your Corporate Affairs Commission registration number
- ✓ **Brief company description** — a short paragraph about your business that buyers will see on your store page

02 — PROPERTY INFORMATION

Please provide details for your first listing. You can add more plots after your store goes live.

- ✓ **Estate name**
- ✓ **Plot number**
- ✓ **Location** — full address or nearest landmark
- ✓ **Total land size** — in square metres (sqm)

03 — FRACTIONAL SALES SETUP

This is how your land will be offered to buyers on the Brikvest platform.

- ✓ **Partition size** — how you would like the land divided. The minimum unit size is 5 sqm. For example: 50 units of 10 sqm, or 100 units of 5 sqm.
- ✓ **Pricing per unit** — your preferred price per unit. You set your own pricing.

Volume discount — optional but recommended

You can offer a lower price per sqm for buyers who purchase larger units. For example a buyer purchasing 50 sqm could pay less per sqm than someone purchasing 10 sqm. This is entirely optional but often encourages larger purchases and helps you sell out faster.

04 — MARKETING MATERIALS

These will be displayed to prospective buyers on your Brikvest store page.

- ✓ **High-quality photos** — clear photos of the land and the estate. The better the photos the better your listing performs.
- ✓ **Land description** — a short paragraph describing the land, its location, and why it is a good investment.
- ✓ **Estate description** — a brief overview of the estate and any amenities or infrastructure in place or planned.

05 — PAYMENT DETAILS

Buyers pay you directly. Brikvest never holds your funds.

- ✓ **Bank name**
- ✓ **Account name**
- ✓ **Account number**

06 — DUE DILIGENCE

Before your property goes live on Brikvest our team will carry out a due diligence review.

- ✓ We will verify ownership and title documentation for the property.
- ✓ We will confirm the information submitted is accurate and consistent.
- ✓ Our team will contact you directly if any additional documents are required.
- ✓ Due diligence is non-negotiable — no listing goes live without passing this review.

This process protects both you and your buyers and gives investors the confidence they need to purchase through your listing.

1

We receive your submission

Our team reviews everything you've sent and confirms receipt.

2

Due diligence is completed

We verify the property and company information. We will contact you if anything additional is needed.

3

You sign the partnership agreement

Before going live you will sign the Brikvest Developer Partnership Agreement which outlines both parties' responsibilities.

4

Your store goes live

We set up your branded store on the Brikvest platform with your listing published and ready for buyers.

5

You start selling

Share your listing with your existing buyers and agents. We will also provide a branded flyer you can distribute. Then you can start selling.

Have questions during the onboarding process?

Our team is available to help at any stage. Reach us at:
